2. Community Participation

SESLHD has a strong commitment to involving community members (consumers, carers, volunteers, the broader community and agencies) in the planning, co-design, delivery and evaluation of our services and programs. SESLHD is keen for community members to have more control over the decisions being made concerning their own health and wellbeing. The SESLHD Community Partnerships Strategy (https://www.seslhd.health.nsw.gov.au/sites/default/files/groups/Planning_Population_and_Equity/Health_Plan s/SESLHDComPartStrategyFINAL.pdf) outlines how SESLHD will work with the community to improve the health and wellbeing of all within our District.

The SESLHD Board Community Partnership Committee_(<u>https://www.seslhd.health.nsw.gov.au/services-</u> <u>clinics/directory/community-partnerships/board-community-partnerships-committee</u>) is a committee of the SESLHD Board. It provides advice and makes recommendations to the Board, Chief Executive, Executive Team and other staff. The purpose of this Committee is to ensure our organisation has a coordinated and comprehensive approach to partnering and engaging with individuals, local communities and with external agencies.

SESLHD Website

Our website is used to provide the public with resources and information about our regulatory functions and activities, health alerts, submissions, policies, news and developments. Members of the public can use the contact page (<u>https://www.seslhd.health.nsw.gov.au/contact-information</u>) of the website to get in touch with us and provide feedback on our services and functions. The website can be accessed at <u>https://www.seslhd.health.nsw.gov.au/</u>.

2.1 Community Advisory Committees

Our hospitals and community health services also have local Community Advisory Committees (<u>https://www.seslhd.health.nsw.gov.au/services-clinics/directory/community-partnerships/consumer-and-community-advisory-committees</u>). Key responsibilities of the Community Advisory Committees include:

- Facilitating communication between consumers, carers and community groups and the Health Service;
- Considering all issues raised by all members of the committee;
- Ensuring information and education materials are available and are easy to understand;
- Participating in the health service planning processes;
- Developing an annual strategic plan for consumer and community participation, including carer issues; and
- Working constructively with other Community Advisory Committees' throughout SESLHD, SESLHD's Health Advisory Council and with SESLHD's management and staff.

A range of other community/stakeholder advisory committees are in place across the district to provide local communities with a voice. These include, but are not limited to, people living with mental illness, hepatitis C, HIV, the Sydney Metropolitan Local Aboriginal Health Partnership and the Multicultural Health Stakeholder Advisory Committee.

For further information about the Community Partnerships Program is available from the **Community Partnerships Coordinator:**

2.2 Be Part of the Conversation

The SESLHD's Community Hub (<u>https://yourvoice.seslhd.health.nsw.gov.au/</u>) is a place where people can connect, share ideas, resources and patient experience stories. The public is encouraged to help shape the SESLHD services by participating in 'What matters to you?' and 'Share your story'.

Together we can ensure that every person who experiences our care feels welcome, valued, and safe. Patient feedback is welcomed <u>https://www.patientopinion.org.au/</u>.

2.3 Become a Consumer Representative

A consumer representative is someone who has chosen to become involved and provide advice, based on their own experiences and knowledge, with the ultimate aim of improving the local health services.

Consumer representatives are often involved with a committee, project or event and are able to provide a unique point of view, while also connecting with communities to find out their perspectives and experiences.

Being a consumer representative invites the public to have a real say in the way health services are provided - <u>https://www.seslhd.health.nsw.gov.au/become-a-consumer-representative-south-eastern-sydney-local-health-district</u>.

To contact a Community Advisory Committee or to discuss consumer participation in SESLHD view the Community Partnership Contact List at <u>https://www.seslhd.health.nsw.gov.au/services-</u> clinics/directory/community-partnerships/community-partnerships-contact-list.

South East Sydney Local Health District is accredited by the Australian Commission on Safety and Quality in Health Care. Every four years reviewers visit our services to make sure we meet the <u>National Safety and</u> <u>Quality Health Service (NSQHS) Standards</u>. Standard 2 - Partnering with Consumers requires that:

Health service organisations communicate with consumers in a way that supports effective partnerships.

3. How to access South Eastern Sydney Local Health District's Information
