## Silver Level Training

### Calling all Improvement Champions!

**Are you passionate about improving the quality and safety of healthcare for your patients?**

**Do you have an improvement idea and want to learn how to implement it?**

**Would you like to develop skills in leading change for improvement in your workplace?**

The SESLHD Improvement Academy has an exciting opportunity open to all staff within the South Eastern Sydney Local Health District.

Silver Level Training is a six month program designed to develop your knowledge and skills in Improvement Science. Completion of the program will empower you to test ideas in your workplace and build your capability to apply the science of improvement in your current role.

As part of the Silver Level Training Program you will undertake an improvement project that is meaningful to you and your workplace. This may be completed individually or as part of a group. Each participant must have an improvement project, new or already underway, that can be completed within six months in order to participate.

To learn more about Silver Level Training, meet some of our alumni and see previous projects implemented within SESLHD, please visit the Improvement Academy website: <https://www.seslhd.health.nsw.gov.au/services-clinics/directory/improvement-academy/programs-for-staff/silver-level-improvement-training>

#### What does Silver Level Training involve?

- Pre-workshop teleconference
- Three designated coaching sessions across the course of the program
- Three full day workshops (two at the beginning & one at the end of the program)
- Progress report 1 due (via email, no attendance required)
- Mid program teleconference
- Progress report 2 due (via email, no attendance required)
- Two optional additional workshops: Data for Improvement Workshop and Presentation Skills Workshop
- Holding the Gains WebEx six months after completing the program
