Welcome
To the South Eastern Sydney Recovery & Wellbeing College

We’ve updated our name, logo and the course guide is now published annually. The name “Recovery & Wellbeing College” respects the history and future of recovery in mental health, as well as cultural views and diverse understandings of distress in our communities. We hope the annual course guide will make it easier to plan which courses you will attend in 2019.

Course Timetable
Every term the Recovery & Wellbeing College will publish a timetable of course dates and venues. To obtain a copy please visit the website www.seslhd.health.nsw.gov.au/recovery-college ph. 9113 2981 or email seslhd-recoverycollege@health.nsw.gov.au

What is the Recovery & Wellbeing College?
Recovery describes a personal journey that people with mental health concerns undertake to rebuild and live a purposeful and meaningful life. The Recovery & Wellbeing College provides education that promotes healing, wellbeing and recovery. We aim for people to become experts in their recovery, emotional wellbeing and achieve their goals and aspirations.

All our courses are co-written and co-facilitated by two Recovery & Wellbeing Educators. One is a person with a lived experience of mental health and/or drug and alcohol concerns. The other is a health care worker, clinician or professional with suitable training and experience.

Who can attend the Recovery & Wellbeing College?
Whether you experience mental health concerns, use drug and alcohol services or both, support someone who does or work within the South Eastern Sydney Local Health District, we offer you the opportunity to learn about recovery, wellbeing and inspire people to lead hopeful and meaningful lives. All the courses are friendly and welcoming.

Enrolling is easy with the option to enrol online
People with lived experience of mental health concerns or who use drug and alcohol services, carers and support people who are new to the Recovery & Wellbeing College.

Option 1: complete online enrolment form www.recoverycollege.knack.com/sies#recovery-college-enrolment-request/

Option 2: complete and return the enrolment form on page 34 of the course guide.
Students who attend the Recovery & Wellbeing College agree to the Student Guidelines and Rights and Responsibilities set out by the College on page 33. Please include a signed copy of these forms when submitting your new enrolment to the College.

For current students of the Recovery & Wellbeing College
There is no need to complete another enrolment form, simply phone or email us with your course preferences.

Staff, students and volunteers

- **Option 1:** enrol online via the mental health intranet site (non-mandatory training): [www.seslhweb/Mental_Health/Training/Clinical.asp](http://www.seslhweb/Mental_Health/Training/Clinical.asp)
- **Option 2:** complete the enrolment form [www.recoverycollege.knack.com/sies#/recovery-college-enrolment-request/](http://www.recoverycollege.knack.com/sies#/recovery-college-enrolment-request/)

For any queries, please call: 9113 2981 or email: seslhhd-RecoveryCollege@health.nsw.gov.au

Learning Support: What is a ‘Student Learning Plan’?
The Recovery College offers individual support to students attending courses. Each student is offered an orientation which includes a Student Learning Plan (SLP). An SLP is a chance to sit down with a Peer Learning Advisor who has lived experience of mental health concerns to identify your educational and life goals and also what support you will need to attend the course. Follow up appointments are offered each term to review your goals, provide feedback on your college experience and to support your course selection for the next term.

Course Streams

**Stream 1: Understanding Mental Health, Drug & Alcohol Experiences & Treatment Options**
These introductory courses are designed to provide information and generate discussion about different mental health, drug and alcohol experiences and common treatment options. The courses incorporate different ways of understanding mental distress.

Courses about rights, current mental health legislation and the mental health system are also offered.

**Stream 2: Rebuilding Your Life – Developing Knowledge & Skills**
In these courses students will share knowledge and ideas about what helps in recovery. Courses explore strategies to develop skills and knowledge to maintain health and wellbeing. The courses aim to assist people to manage their own mental health and direct their own mental health care.

**Stream 3: Recovery Supporting Practice & Getting involved in Mental Health Services**
These courses provide information about the different ways that people with lived experience, their families and carers can get involved in the mental health system as employees, volunteers or committee members.

Courses also aim to educate mental health workers in approaches that support personal recovery and how to effectively work alongside and support people in consumer, carer or peer worker roles.

Staff of SESLHD Mental Health Service must gain approval from your manager prior to enrolling in any of the courses.

What happens if I can’t attend?
We understand that there may be genuine reasons why on occasion people find it difficult to attend a course. The team is available to talk to you about any barriers to attending you might have and can suggest strategies to support you. We expect you to contact the College if you are unable to attend.

Work Development Orders (WDO)
Students who can’t pay their fines and attend courses regularly and who are eligible for WDO, can clear their fines with attendance at Recovery & Wellbeing College courses instead of money. To find out more, Ph. (02) 9113 2981 or visit the WDO website [www.revenue.nsw.gov.au/fines/ eo/factssheet/wdo](http://www.revenue.nsw.gov.au/fines/eo/factssheet/wdo)
An Introduction to Recovery & the Strengths Approach

There is a lot of talk about recovery and strengths, but what does it really mean? This course will introduce you to the concepts of recovery and strengths for individuals, families and mental health services. Topics include:

- The meaning of recovery in mental health and the changing understanding over time
- Factors that can help or hinder recovery including the role of language
- The Strengths Approach as a philosophy that can support recovery
- The Strengths Model and how it is used in the South Eastern Sydney Mental Health Services to help people take control and build meaningful lives.

This course is a great introduction to the Recovery & Wellbeing College and a foundation for other courses.

For a more in-depth exploration of recovery, look out for our 2 day course: Recovery Supporting Services and Systems. Clinicians who require training in implementation of the Strengths Model should enrol in the SESLHD 2 Day Strengths Model Training.

Learning Outcomes

Students will

- Develop skills to use recovery oriented language and strengths based conversations
- Gain knowledge of the strengths approach and how it supports recovery
- Explore their attitudes toward recovery from mental distress and focus on a person’s strengths.

Exploring Alcohol, Drug Use & Wellbeing

This course will explore the impacts alcohol & other drug use can have on a person’s health and wellbeing. It is co-facilitated by a Peer Educator with a lived experience and a drug & alcohol professional in a safe and non-judgemental environment. The course will provide students with resources and information about services that are available to support & improve health outcomes.

Learning Outcomes

Students will

- Develop skills to seek treatment, cope with lapse or relapse and to develop support networks
- Gain knowledge about how & why people use drugs and how drug use intersects with mental distress
- Explore their attitudes toward drug use and how the harm minimisation approach applies in the context of mental distress & drug and alcohol use.

Duration: 1 day

Term and Location

Term 1 - Kogarah
Term 2 - Kogarah
Term 3 - Kogarah
Term 4 - Kogarah

Duration: 3 hours

Term and Location

Term 2 - Sutherland Shire
Term 4 - Kogarah
Exploring Anxiety

This course will explore the experience of anxiety from a range of perspectives. Topics include:

- Definitions of anxiety
- Different ways of understanding anxiety
- Treatment options, ways to deal with anxiety and supports available
- Information about how to support a person you care for with anxiety.

Learning Outcomes

Students will

- Develop skills in self-care and strategies for dealing with anxiety
- Gain knowledge on what is anxiety, treatments, supports available and supporting someone with anxiety
- Explore beliefs and values relating to the stigma of anxiety.

Duration: 3 hours

Term and Location

Term 2 - Kogarah
Term 4 - Sutherland Shire

Exploring Depression

This course will explore the experience of depression and provide access to information and support options about depression. A peer educator will provide a personal perspective on living with depression. A mental health professional will provide information about the clinical understanding of depression. The educators will work with students to develop strategies for identifying positive coping strategies for recovery from depression.

Learning Outcomes

Students will

- Develop skills to recognise the early warning signs of depression and apply positive coping strategies
- Gain knowledge to understand depression from a range of different perspectives
- Explore their attitudes towards depression and challenge common myths about depression.

Duration: 3 hours

Term and Location

Term 2 - Sutherland Shire
Term 4 - Eastern Suburbs

Exploring Bipolar

This course will explore the experience of bipolar, from clinical and personal recovery perspectives. Students will explore different ways of understanding bipolar, treatment options and supports available. The course will also outline strategies for carers to support a person who is experiencing distress associated with bipolar.

Learning Outcomes

Students will

- Develop skills to manage the ups and downs of both mood and energy and be able to deal with these in daily life
- Gain knowledge about different explanatory frameworks of bipolar
- Explore their attitudes about living with bipolar.
Exploring Eating Distress & Recovery

This introductory course explores eating distress and recovery. Students will acquire skills to support recovery; knowledge about different approaches to recovery; and challenge stereotypes and misconceptions about eating disorders.

Learning Outcomes

Students will

- Develop skills to support recovery from eating distress
- Gain knowledge about different approaches to recovery from eating distress
- Explore their attitudes toward eating distress, stereotypes about ‘eating disorders’ and what recovery from eating distress means.

Duration: 2 hours x 2 weeks

Term and Location

Term 1 - Kogarah

-------------------------------

Exploring Grief and Loss

Grief and Loss is a part of life. We all will experience it in some way. The grieving process is unique to the individual experiencing it. Whether it’s the loss of a loved one, a pet, a job, or any other event, this course explores the various expressions of grief and loss in life and how they relate to our mental health. The course highlights the diversity of grief and loss experiences associated with various lifespan stages, different cultural perspectives, specific life events and includes practical coping strategies.

Learning Outcomes

Students will

- Develop skills and learn tools to improve responses to grief and loss
- Gain knowledge to understand grief and loss and information about community resources available
- Explore beliefs and values relating to grief and loss.

Duration: 4 hours

Term and Location

Term 2 - Sutherland Shire

-------------------------------

Exploring Personality Disorders

People who have received a diagnosis of "personality disorder" often have lived experience of emotional distress that can impact their relationships with other people, their capacity to manage their own emotions and their sense of "self" within the world. Some people have had adverse childhood experiences, including trauma, which can impact these individuals into adulthood. This course will draw on both lived experience and professional expertise to examine the impacts, challenges and benefits of a personality disorder diagnosis. It will also explore ways of looking after yourself and your emotions, plus a range of approaches to support recovery.

Learning Outcomes

Students will

- Develop skills to navigate their recovery journey, support their loved one or work with someone who has this diagnosis
- Gain knowledge on the experience of personality disorder and the recovery journey
- Explore their attitudes toward the experience of personality disorder, the individual’s journey and how that fits within the mental health system.

Duration: 3 hours

Term and Location

Term 2 - Kogarah
Term 4 - Eastern Suburbs
Exploring Intellectual Disability & Mental Health: Discovery & Recovery

This course will provide students with information about the intersection between intellectual disability and mental health concerns. Students will gain an understanding of strategies and services that can help them and the person they care for through their recovery and discovery experience.

Learning Outcomes

Students will
* Develop skills in self-care and supporting others who experience both intellectual disability and mental health concerns
* Gain knowledge to understand people who experience both intellectual disability and mental health concerns and how to access available services
* Explore their attitudes towards the experience and rights of people with an intellectual disability and mental health concerns.

Duration: 4 hours

Term and Location
Term 3 - Kogarah

Exploring Mental Health Conditions

This course introduces students to different mental health conditions and the treatments available. Topics include:
* How diagnosis is made in the Australian mental health system
* How to navigate the mental health system when the person you care for is experiencing mental distress
* Tips for communicating with mental health workers.

Learning Outcomes

Students will
* Develop skills to navigate the mental health system and how to communicate with mental health workers
* Gain knowledge on different explanations of psychosis, including the mental health services use of diagnosis and the power of language
* Explore their attitudes of hope and strength to support personal recovery from psychosis.

Duration: 3 hours

Term and Location
Term 1 - Eastern Suburbs
Term 3 - Kogarah

Exploring Psychosis

How people understand the experience called psychosis varies for each person. However, there are often commonalities in the ways people deal with these experiences. Topics include:
* What is psychosis?
* Approaches and supports available
* Ways of managing the experience of psychosis.

Students may like to continue their learning after this by attending the Life beyond Psychosis course.

Learning Outcomes

Students will
* Develop skills to access resources to support personal recovery from psychosis
* Gain knowledge to understand recovery philosophy, recovery principles, common mental health conditions, terms and and treatments available
* Explore attitudes about mental health labels and how these may help or hinder people’s recovery journey.

Duration: 6 hours

Term and Location
Term 3 - Eastern Suburbs

Recovery & Wellbeing College 6
Exploring the Impact of Trauma
This course explores the impact of trauma. Topics include:
* What is trauma?
* How trauma impacts on wellbeing, relationships and communities
* Drug and alcohol use as a response to trauma
* Finding hope after the experience of trauma.

Learning Outcomes
Students will
* Develop skills to recognise what trauma is and how to cope better with trauma in their own lives
* Gain knowledge on how to make sense around their own experiences related to trauma, and strategies to assist in their recovery journey
* Explore their attitudes toward trauma and traumatic events, and how they play out in adaptive behaviours in their lives.

Duration: 4.5 hours
Term and Location
Term 2 - Eastern Suburbs
Term 4 - Sutherland Shire

Exploring Trauma for Women
This course for women introduces students to the experience of trauma. Topics include:
* Definitions of trauma
* Types and prevalence of trauma experienced by women
* The impacts of trauma on women, their families and the community
* The recovery process after experiencing trauma.

Learning Outcomes
Students will
* Develop skills to recognise traumatic events and develop strategies to create safety
* Gain knowledge on the impacts of trauma and the range of trauma-informed services within and beyond the mental health sector
* Explore their attitudes toward survivors of trauma and the recovery process following trauma.

Duration: 3 hours
Term and Location
Term 1 - Kogarah
Term 3 - Sutherland Shire

LGBTIQ+ Mental Health & Social Justice
Many people who are lesbian, gay, bisexual, transgender, intersex and queer (LGBTIQ) and experience stigma and bias. This course looks at how this impacts on mental health. It offers strategies for staying well and ideas for creating change. This course leads on to our Stream 3 course for mental health workers, Journeys in Gender, Sex & Sexuality: From Surviving to Thriving.

Learning Outcomes
Students will
* Develop skills to identify prejudice and discrimination on the basis of sexuality or gender and their impact on mental health and well-being
* Gain knowledge on the impact of systemic oppression and minority stress for the LGBTIQ+ population
* Explore their attitudes toward gender, sexuality, mental distress and well-being.

Duration: 3 hours
Term and Location
Term 2 - Sutherland Shire
Term 4 - Kogarah
Linking to a GP

What is the role of general practice in supporting people with a lived experience of mental distress and addiction? This course will explore the range of services GPs and practice nurses can offer. In particular, students will learn how GPs can support those receiving opioid substitution treatment or who have physical health needs related to their mental distress.

Learning Outcomes

Students will

- Develop skills to identify financially-accessible holistic primary health care
- Gain knowledge on how to get or replace a Medicare card and how GP’s can assist people with alcohol & other drug treatment and mental distress
- Explore their attitudes toward seeing a GP and how they can improve general health and wellbeing.

Duration: 3 hours

Term and Location

Term 3 - Kogarah

Making Meaning of Medications

This course will explore the role of medication in recovery. Topics include:

- The different kinds of medications used in mental health care
- How and when medication is used
- Who prescribes medication
- How to get information and make decisions about medication.

Learning Outcomes

Students will

- Develop skills and confidence in talking to their doctor
- Gain knowledge on the medications used for people with mental health concerns
- Explore their attitudes on the role of medications in recovery.

Duration: 4 hours

Term and Location

Term 3 - Sutherland Shire

Navigating the Mental Health System

This course will develop skills and knowledge to make informed choices about using and working with public, private and community managed mental health and General Practitioner services. It will explore how we work in the South Eastern Sydney Local Health District, roles of the different professions, consumer rights and responsibilities.

Learning Outcomes

Students will

- Develop skills to access mental health services in the South Eastern Sydney area
- Gain knowledge on the range of public, private, primary and non-government services in the mental health system
- Explore their attitudes to myths and stereotypes about accessing the mental health system.

Duration: 4 hours

Term and Location

Term 1 - Kogarah
Opioid Medications & Recovery

Do you have questions about opioid treatment, but haven't wanted to or had a chance to ask? In this course we will discuss the different types of opioid treatment available, potential side effects and treatment goals.

Learning Outcomes
Students will
* Develop skills to recognise what opioid treatment and recovery is, its effects and how to develop better coping skills in their own lives and recovery journey
* Gain knowledge on the aspects of opioid treatment and recovery in their own lives, and how to make sense of their own experiences
* Explore their attitudes towards opioid treatment and recovery.

Duration: 4 hours

Term and Location
Term 1 - Kogarah

Suicide: Recovery & Hope

For many people who experience mental distress or have a dependence on alcohol or other drugs, suicidal thinking or behaviour can be an aspect of their lived experience. This course will explore how to speak honestly about suicide, an understanding of the support available and the opportunity to challenge myths and stereotypes about suicide.

Learning Outcomes
Students will
* Develop skills to cope in difficult times
* Gain knowledge on how to support recovery and the benefits of mindfulness
* Explore their attitudes relating to recovery and self-care.

Duration: 2 hours x 2 weeks

Term and Location
Term 1 - Eastern Suburbs
Term 3 - Sutherland Shire

Supporting Recovery & Looking After Yourself as a Carer

This course explores how to support the person you care for in their recovery as well as looking after your own emotional health and wellbeing. You will come away with information, skills and tips about caring for your own needs so that you can continue to support your loved one and maintain hope in their recovery. Topics include the benefits of mindfulness, where to get help, maintaining healthy relationships, coping during difficult times, communication tips and supporting recovery.

Learning Outcomes
Students will
* Develop skills to cope in difficult times
* Gain knowledge on how to support recovery and the benefits of mindfulness
* Explore their attitudes relating to recovery and self-care.
Understanding the Mental Health Act
This course explores a basic understanding of the NSW Mental Health Act 2007 as it applies to involuntary treatment such as scheduling and community treatment orders. It looks at how the Act can be used to help and protect people who may be experiencing mental health concerns and provides important information for family members and carers.

Learning Outcomes

Students will

✱ Develop skills to learn how to appeal a decision for involuntary treatment and how to request a meeting with an Official Visitor
✱ Gain knowledge on the NSW Mental Health Act 2007, including amendments to the Act impacting people with mental health concerns, their carers, and clinicians
✱ Explore their beliefs, stereotypes and values relating to the NSW Mental Health Act 2007.

Duration: 4 hours

Term and Location

Term 2 - Eastern Suburbs
Term 4 - Sutherland Shire

Wellbeing in Pregnancy & Early Parenthood

Pregnancy and early parenthood are times of change. These changes may bring up strong emotions and increase vulnerability to mental distress. This course will encourage students to begin exploring their own expectations, question societal assumptions about pregnancy and parenthood and consider their support needs.

Learning Outcomes

Students will

✱ Develop skills to ask for help and to identify when to ask for help during pregnancy and early parenthood
✱ Gain knowledge on the range of support services available to promote wellbeing in pregnancy and early parenthood
✱ Explore their attitudes toward pregnancy, early parenthood and help-seeking, when experiencing distress.

Duration: 3 hours

Term and Location

Term 1 - Kogarah

"Your college has definitely shone a light on what it is to experience mental illness and how people can learn and better themselves."
Stream 2 - Rebuilding Your Life - Developing Knowledge & Skills

Communication – Finding Your Voice
This course explores communication and how it supports recovery. Topics include:

- What is communication and how do we communicate
- Assertiveness, and how to say “no”
- What to say after you say “hi”.

Learning Outcomes

Students will

- Develop skills in initiating casual conversations and how to read body language
- Gain knowledge on the different communication styles, such as aggressive, passive and assertive
- Explore their values about the purpose of communication and its role in recovery from mental distress.

Duration: 2 hours x 4 weeks

Term and Location

Term 2 - Eastern Suburbs
Term 4 - Sutherland Shire

Coping with Strong Emotions

Many people who experience mental distress and those with drug and alcohol concerns, have had times of overwhelming emotions. This can impact us individually, our relationships with family, friends and the broader community. Topics include:

- Strategies to cope with strong emotions
- The concept of ‘emotional regulation’
- Treatment approaches such as Dialectical Behaviour Therapy (DBT).

Learning Outcomes

Students will

- Develop skills to recognise, cope with and tolerate a range of emotions
- Gain knowledge on the different core emotions and the effects of emotions on the body
- Explore their attitudes toward accepting that feeling a range of emotions is normal and increase their skills and confidence to regulate and manage different emotions.

Duration: 3 hours x 2 weeks

Term and Location

Term 1 - Sutherland Shire
Term 3 - Eastern Suburbs

Creativity for Recovery

Over five weeks, students will use varying approaches to get in touch with creativity, and learn how to integrate these approaches into their everyday lives. Exploring different creative mediums such as creative writing, poetry, music and the visual arts will form the basis of a practical and engaging look at the role of creativity in mental health recovery and wellbeing.

Learning Outcomes

Students will

- Develop skills in using creative exercises to aid recovery
- Gain knowledge on how creativity can be used to aid mental health recovery
- Explore attitudes towards how creativity can foster hope for recovery.

Duration: 2 hours x 5 weeks

Term and Location

Term 1 - Kogarah
Term 3 - Sutherland Shire
Finding a Place to Call Home
Finding and maintaining housing can provide much-needed stability for our recovery to progress. This new course will explore a range of affordable and supported housing options for people with a lived experience of mental distress. Learn how to get and keep a place you can call home.

Learning Outcomes
Students will

- Develop skills in how to get and keep housing
- Gain knowledge on different kinds of housing that support recovery
- Explore their attitudes toward and values about the relationship between housing and recovery.

Duration: 4 hours

Term and Location
Term 1 - Kogarah

Getting a Good Night’s Sleep
Many people have problems sleeping. People with lived experience of mental health concerns and those who live with or care for them may have their sleep disrupted. This interactive course will explore sleep, the relationship between mental health and sleep, offer practical strategies for getting a good night’s sleep and inform participants of available support and resources in the community.

Learning Outcomes
Students will

- Develop skills and strategies to improve sleep
- Gain knowledge on the nature of sleep and its role in promoting wellbeing
- Explore their attitudes about sleep and its relationship to recovery.

Duration: 3 hours

Term and Location
Term 2 - Sutherland Shire
Term 4 - Kogarah

Getting Into Volunteer Work
This course explores the benefits of volunteering including contributing to the community, meeting new people and developing skills for employment. Topics include:

- Information about different volunteering roles and opportunities
- How to find and apply for volunteer work that is fun and fulfilling
- How volunteering can impact on your social connections and wellbeing.

Learning Outcomes
Students will

- Develop skills to search and apply for volunteer work
- Gain knowledge about volunteering roles, requirements and opportunities
- Explore their attitudes towards how volunteering can impact on their wellbeing and community connections.

Duration: 3 hours

Term and Location
Term 1 - Sutherland Shire
Improving Self Esteem & Challenging Stigma

This course explores how low self-esteem develops and might be maintained throughout a person’s life, and how this may impact a person’s substance use. Topics include:

- How low self-esteem develops
- How to take hold of your own self-worth
- The roots of stigma and how to become a stigma buster.

Learning Outcomes

Students will

- Develop skills to recognise the impact of stigma on self-esteem
- Gain knowledge about how self-esteem develops and how it can be improved
- Explore myths and stereotypes about substance use and mental distress that impact on self-esteem and challenge the stigmatising attitudes that lead to discriminatory behaviour.

Duration: 4 hours

Term and Location

Term 2 - Kogarah

Term 4 - Eastern Suburbs

Law for Everyday Life

This course is co-facilitated by a lawyer from Legal Aid NSW and will provide students with information on a range of civil law issues that impact on people’s everyday life like debts, unpaid fines, discrimination, tenancy issues, Centrelink disputes and more. Legal issues relevant to mental health will also be explored.

Learning Outcomes

Students will

- Develop skills to deal with legal issues in their daily life
- Gain knowledge of the legal systems affecting people with mental health concerns
- Explore their attitudes toward the legal system, discrimination law and policies affecting daily life.

Duration: 3 hours x 2 weeks

Term and Location

Term 2 - Sutherland Shire

Term 4 - Kogarah

Life Beyond Anxiety

Many people experience anxiety and live a meaningful and purposeful life. In this new course, students will learn strategies, including relaxation practices, to support living life to the full beyond the experience of anxiety. Students will hear from the lived wisdom of a Peer Educator who has personally experienced living with and beyond anxiety. The Clinical Educator will share from their knowledge in what assists people in their day to day life and future ambitions.

Learning Outcomes

Students will

- Gain skills in practicing relaxation
- Gain knowledge about resources available to support recovery from anxiety
- Explore their attitudes to what wellbeing means to life beyond anxiety.

Duration: 3 hours

Term and Location

Term 3 - Kogarah
Life Beyond Depression

Students will have the opportunity to use a range of tools, skills and strategies to enhance resilience and improve wellbeing. You will be introduced to the idea of a wellness plan to assist with the recovery journey from depression. This course complements and builds upon the Exploring Depression course.

Learning Outcomes

Students will
* Develop skills to recognise early warning signs and put strategies in place to develop a strong support network
* Gain knowledge about a variety of internal and external resources available to support and assist them in staying well from depression
* Explore their attitudes and ideas about what life beyond depression means to them and others, and explore positive mental health and wellbeing.

Duration: 3 hours

Term and Location

Term 2 - Sutherland Shire
Term 4 - Eastern Suburbs

Life Beyond Psychosis

This course provides students with the opportunity to use a range of tools, skills and strategies to enhance resilience and improve wellbeing. You will be introduced to the idea of a wellness plan to assist with the recovery journey from the experience of psychosis. This course follows on from the Stream 1 course - ‘Understanding Psychosis’

Learning Outcomes

Students will
* Develop skills in wellness planning beyond the experience of psychosis and practice using relaxation exercises
* Gain knowledge about psychosis; how it can impact upon personal relationships; recovery strategies; and the relaxation response

NEW Life Beyond Trauma

The experience of trauma and its recovery is extremely challenging and impacts on how a person views themselves and the world around them. In this course, students will learn about strategies to establish safety, make meaning and connect with others after trauma. The educators will draw on their own experiences to share how they approach & foster recovery and growth. The course will explore how to apply recovery approaches to experiences such as dissociation and post-traumatic stress, how to not only ‘survive’ after trauma, but how to reclaim a life of hope and meaning.

Learning Outcomes

Students will
* Gain skills in strategies to support and reclaim a life of hope and meaning beyond trauma
* Develop knowledge about the range of approaches, services and supports available
* Explore their attitudes about what a life beyond trauma might mean for themselves and others.

Duration: 2 hours x 3 weeks

Term and Location

Term 4 - Kogarah
Making & Keeping Connections
Over four weeks, this course will explore:
- Confidence and moving through fear of judgement
- Boundaries and sense of self
- Establishing and maintaining friendships
- Establishing and maintaining intimate relationships.

Learning Outcomes

Students will
- Develop skills to recognise common misinterpretations of body language and how these can impede connection
- Gain knowledge about the key ingredients of mutually respectful friendships and relationships, and the difference between intensity and intimacy
- Explore their attitudes about their relationship with themselves and others as well as identifying their strengths and areas for growth in this area.

Duration: 2 hours x 4 weeks

Term and Location
Term 1 - Eastern Suburbs
Term 3 - Kogarah

Men's Health
According to the Australian Men's Shed Association, “men don't talk face-to-face, they talk shoulder-to-shoulder”. This course will holistically look at men's health exploring identity, expression, healthy support networks and connectedness in relationships and coping with stressors in everyday life.

Learning Outcomes

Students will
- Develop skills to reflect upon their own identity and masculinity
- Gain knowledge about men's health and the intersection of Alcohol and Drug use and mental distress and where to go for help
- Explore their attitudes toward masculinity, men's health and recovery.

Duration: 3 hours

Term and Location
Term 2 - Kogarah
Term 4 - Eastern Suburbs

Mindfulness Courses
For information on Mindfulness courses in English and Community languages please refer to pages 19-20.

Perspectives on Healing
This course will begin by eliciting students' perspectives on healing, then introduce and explore a wide range of modalities of healing, change and growth. Students will consider diversity in healing and the vast range of healing perspectives.

Learning Outcomes

Students will
- Develop skills to better decide on suitable healing approaches for themselves and those that they are supporting
- Gain knowledge on diverse perspectives of healing approaches and their connections to an individual's recovery journey
- Explore their attitudes towards the breadth of healing perspectives that are available to them and that they may wish to utilise.

Duration: 3 hours

Term and Location
Term 1 - Sutherland Shire
Recovery Stories

This course will support students to process, create and publish their individual recovery stories into a book format. Students will explore and reflect on their journey through inspiring mediums such as poetry, photography, art, visual journey boards and creative writing. This course is for anyone who would like their narrative, expressive and visionary skills to come alive on the page.

Learning Outcomes

Students will

* Develop the skills to process, craft and publish their story through the use of different mediums such as creative writing, poetry, visual art, journey board and/or photography
* Gain knowledge on how to link their personal story to recovery principles to utilise and reflect on personal strengths and creative capabilities
* Explore their attitudes on how storytelling can be told effectively through expressive channels tailored to suit each individual’s experience.

Duration: 2 hours x 4 weeks

Term and Location

Term 3 - Kogarah

Resilience

This course explores resilience in the context of change and life challenges.

It will help students understand the factors that make us resilient, identify ways of coping that they currently use and learn new skills they can access to survive and thrive in times of change and difficulty.

Learning Outcomes

Students will

* Develop skills to identify and use tools to improve resilience
* Gain knowledge of resilience and the skills they already possess
* Explore beliefs and values relating to coping with life challenges.

Duration: 2 hours x 4 weeks

Term and Location

Term 1 - Eastern Suburbs
Term 3 - Kogarah

Spirituality & Wellbeing

This course is for anyone, whether you believe in a specific religion, have some understanding of the role of spirituality in your own life, or have not thought about spirituality before, and would simply like to learn more. You will meet other people and hear and understand what spirituality means for them as well as explore new ways of being spiritual and how this impacts on your wellbeing.

Learning Outcomes

Students will

* Develop skills to express their spirituality
* Gain knowledge of the wide variety of spiritual practices
* Explore their attitudes towards spirituality and its relationship to wellbeing.

Duration: 2 hours x 3 weeks

Term and Location

Term 2 - Kogarah
Squalor, Hoarding & Recovery

Living in situations of squalor and hoarding can have a big impact, effecting relationships and health. People may be fearful of eviction and increasing levels of anxiety often go hand-in-hand. An urge to acquire may stem from efforts to manage overwhelming fear, grief or trauma. In this course, students will develop an understanding of how squalor and hoarding impacts people and what services and other supports are available to assist in recovery from this experience.

Learning Outcomes

Students will

- Develop skills in managing strong emotions associated with squalor and hoarding
- Gain knowledge about the relationship between squalor and hoarding and mental distress and what services and supports are available to assist people who experience hoarding
- Explore their attitudes towards squalor, hoarding and recovery.

Duration: 4 hours

Term and Location

Term 4 - Kogarah

Understanding & Working with Voices

This course facilitated by the Melissa Roberts Foundation will provide students with information about the worldwide Hearing Voices movement and local self-help groups. Students will develop a better understanding of the voice hearing experience and ways of working with voice hearers.

Learning Outcomes

Students will

- Develop skills in the three stages of voice hearing and voice dialogue
- Gain knowledge of the hearing voices experience and background to the hearing voices approach
- Explore their attitudes about people with the lived experience of hearing voices.

Duration: 4 hours

Term and Location

Term 2 - Eastern Suburbs
Term 4 - Sutherland Shire

Taking Control of Your Life

This course takes people on a journey to explore the themes of recovery and understand its meaning to their lives, to develop tools to recover and support recovery, understand the barriers and strategies to recover and create recovery oriented services.

Learning Outcomes

Students will

- Develop skills to identify their strengths, support networks, generate goals and apply a weekly intention
- Gain knowledge of recovery themes such as hope, empowerment, purpose and connectedness

Duration: 2 hours x 4 weeks

Term and Location

Term 1 - Kogarah
Term 3 - Sutherland Shire
Yoga for Recovery  
(Previously Body, Mind & Breath)

Relaxation and gentle yoga exercises are helpful for people to maintain balance and mental wellbeing. During this introductory course students will learn relaxation techniques, simple yoga postures and have the opportunity to explore the benefits of these approaches to recovery.

We recommend students wear comfortable clothing to this course.

Learning Outcomes

Students will

🌟 Develop skills in gentle movement, breathing practices and relaxation
🌟 Gain knowledge of the benefits of gentle yoga and how to incorporate it into daily life
🌟 Explore their beliefs and values relating to a holistic approach to wellbeing.

Duration: 1.5 hours x 4 weeks

Term and Location

Term 2 - Kogarah
Term 4 - Eastern Suburbs

Your Recovery Journey

In this course students will apply the ideas of recovery to their own life and personal situation. They will identify their hopes and ambitions for their life and will leave the course with clear goals and a plan for their life and their time with the College.

Learning Outcomes

Students will

🌟 Develop skills to set and review SMART goals, identify recovery principles & their strengths
🌟 Gain knowledge about SMART goal-setting, recovery principles, the strengths approach and recovery-oriented language
🌟 Explore their attitudes toward their self-conception, especially if this has been influenced by the biomedical model, and the possibility of recovery for everyone.

Duration: 4 hours

Term and Location

Term 2 - Kogarah

Term 4 - Eastern Suburbs

“People can just listen in the course, the lack of pressure to talk if you don’t want to... People feel safe, which is really important.”
Mindfulness Courses in English & Community Languages

NEW Mindfulness Workshop
Have you heard about mindfulness and wondered what it is? In this short, friendly session you will hear about what mindfulness is and how it can be a part of your wellbeing. You will have a chance to take part in some brief mindfulness activities and learn about other courses available at the Recovery & Wellbeing College and in the community.

Learning Outcomes
Students will
- Develop skills in a mindfulness breathing exercise
- Gain knowledge of the benefits of mindfulness and where to find courses in the community
- Explore how mindfulness can support recovery from mental distress.

Duration: 1 hours
Term and Location
Term 1 - Kogarah

Introduction to Mindfulness in English
Does life sometimes feel out of control and overwhelming? Do you want to improve your quality of life? Mindfulness meditation is an effective approach to support mental health recovery and improve overall wellbeing. During this 5 week course, students will be introduced to the principles of mindfulness and a range of exercises that will assist in reducing stress levels, improving concentration and accepting emotions.

Learning Outcomes
Students will
- Develop skills to apply mindfulness practices to manage stress, reduce self-judgement and build self-compassion in daily life
- Gain knowledge of the stress response and experiential exploration of a wide variety of mindfulness practices
- Explore their attitudes on how mindfulness practices can support recovery from mental distress.

Duration: 2 hours x 5 weeks

Term 3 - Sutherland Shire

“I find the College welcoming, supportive and encouraging self-acceptance which is all helpful.”
Stream 3: Recovery Supporting Practice & Getting involved in Mental Health Services

Challenging Stigma
Many people with a lived experience of mental distress are faced with not only recovering from this experience, also from stigma and discrimination. This interactive course will explore the impact of stigma and discrimination. Students will develop practical strategies for challenging stigma and discrimination in their communities.

Learning Outcomes
Students will
- Develop skills to challenge stigma and discrimination
- Gain knowledge about their rights under discrimination laws
- Explore their attitudes and beliefs about stigma and mental illness.

Duration: 4 hours
Term and Location
Term 1 - Sutherland Shire
Term 3 - Eastern Suburbs

Committee Work
This practical course aims to provide students with an understanding of the reasons for committee work and how to participate effectively. Students will explore roles within committees, dealing with challenging situations and strategies to overcome these, benefits of becoming involved, examples of local, state and national mental health committees and how to get involved.

Learning Outcomes
Students will
- Develop skills to contribute effectively as a committee member and how to deal with the challenges which may arise
- Gain knowledge of how committees are structured, the roles on a committee and find out about opportunities to participate on committees
- Explore their beliefs and values relating to why you want to become a consumer representative on committees.

Duration: 4 hours
Term and Location
Term 1 - Kogarah
Term 3 - Eastern Suburbs

Introduction to Consumer & Peer Worker Roles
This introductory course will provide information about the history, nature and policy context of the roles of Consumer and Peer Workers. Students will learn about resources and the capacity to work effectively with these important positions in mental health services. They will gain an understanding of how purposeful storytelling is used in recovery oriented practice. The information will provide a foundation for those interested in pursuing a career in Consumer and Peer Work.

Learning Outcomes
Students will
- Develop skills to prepare their story in a purposeful way, learn how to work effectively in the mental health system; what to avoid and how to resolve boundary issues
- Gain knowledge of consumer and peer worker roles, the training pathways for consumer and peer work, its values and role challenges
- Explore their attitudes toward the importance of peer work for the reform of mental health services and consumer participation at all levels.

Duration: 1 day

**Journeys in Gender, Sex & Sexuality: From Surviving to Thriving**

This course will build mental health workers’ capacity to respond to people who are lesbian, gay, bisexual, queer, asexual, transgender and/or intersex (LGBTQIA), their families of choice and communities. It will explore how homophobia and transphobia impact on mental health and wellbeing. Students will learn strategies for making mental health services more inclusive of people who are gender, sex and sexuality diverse.

**Learning Outcomes**

* Students will
  ✴️ Develop skills to use appropriate terminology
  ✴️ Gain knowledge of the connection between LGBTQIA lived experiences, minority stress and mental distress
  ✴️ Explore their attitudes toward working with people who are LGBTQIA, their families of choice and communities.

**Duration:** 1 day  
**Term and Location**  
Term 1 - Kogarah

---

**Public Speaking**

Many people find the thought of public speaking daunting. This course will assist students to develop skills and confidence to speak publically in a range of forums, including meetings and training. Topics include:

* Developing confidence and combat feelings of fear and anxiety
* Engaging the audience
* Planning presentations.

**Learning Outcomes**

* Students will
  ✴️ Develop skills to build students confidence to speak in various settings for oneself or on behalf of others
  ✴️ Gain knowledge to publically speak towards reducing stigma and creating awareness of mental distress and mental wellbeing
  ✴️ Explore attitudes, self-perception, beliefs and values relating to their own self confidence and ability to stand up in front of others and advocate for consumers.

**Duration:** 4 hours  
**Term and Location**  
Term 4 - Eastern Suburbs

---

**Recovery Supporting Services & Systems**

Recovery oriented practice is dynamic and continually advancing. This stimulating two day course will examine the complexities of recovery supporting practices and service delivery by challenging students to ‘unpack’ and ‘unlearn’ many of the assumptions in mental health. Students will use the to explore how recovery can be supported and promoted in their day to day work. If you want to advance your understanding of Recovery oriented practice and service delivery to the next level, then this is the course for you. Attendance at the Introduction to Recovery and Strengths course or other prior recovery education is a pre-requisite.

**Learning Outcomes**

* Students will
  ✴️ Develop skills in applying the capabilities in the National Framework for Recovery Oriented Mental Health Services to lead and facilitate recovery-supporting practices
  ✴️ Gain knowledge of the domains and capabilities in the National Framework for Recovery Oriented Mental Health Services and their evidence base
  ✴️ Explore their attitudes toward both people’s ability to recover and mental health workers’ ability to implement recovery-oriented practices.

**Duration:** 2 days  
**Term and Location**  
Term 3 - Kogarah
Supporting Personal Autonomy, Self-Management & Growth

This workshop has a strong practical focus on approaches, resources and tools to overcome barriers and support personal autonomy and growth. Students will explore the following in the context of their own experiences and/or supporting others:

- A framework for exploring and supporting self-management
- Discovering ourselves and supporting others in self-discovery
- Hope-inspiring people and practices
- Honoring identity and personal meaning
- Understanding and exercising personal agency and personal control
- Enhancing personal networks and finding or creating a sense of belonging.

Learning Outcomes

Students will

- Develop skills in using different approaches, resources and tools
- Gain knowledge to define each of the key concepts
- Explore the connection between two key frameworks – the Self-Righting Star and CHIME.

Duration: 2 days

Term and Location

Term 2 - Kogarah
Term 4 - Kogarah

Systemic Advocacy

This course will provide students with information, skills and confidence to engage in systemic advocacy. Students will leave with strategies and connections to work towards positive change in services, policy, law, communities and attitudes.

Learning Outcomes

Students will

- Develop skills to apply social justice principles to mental health advocacy
- Gain knowledge of the human rights framework informing systemic advocacy in mental health
- Explore their attitudes in relation to the psychiatric survivor movement and how these align with systemic advocacy in mental health.

Duration: 4 hours x 2 weeks

Term 2 - Sutherland Shire
Term 4 - Eastern Suburbs
Telling Your Story in a Public Forum
In this course, students will learn how to make meaning of their experience and tell their story using recovery principles. They will also learn about boundaries and keeping safe, confidentiality of others in their story, how to deal with curly questions and how to manage nerves. The course will also explore how students can tailor their story to the needs of different audiences.

Learning Outcomes
Students will
🌟 Develop skills to write their own story on a story template and manage nerves
🌟 Gain knowledge about recovery principles, purposeful storytelling and telling their story using different formats
🌟 Explore the myths & stereotypes associated with mental distress by learning to tell the positive aspects of the story focussing on what helped rather than what hindered.

Duration: 4 hours
Term and Location
Term 2 - Sutherland Shire

Transformation through Co-Production
Co-production is an approach that involves people with lived experience of mental health concerns and clinicians working in collaboration. It is increasingly being adopted in mental health services and can be used in direct work, service planning and policy. Topics include:
🌟 The six principles of co-production and what these mean in practice
🌟 How co-production can transform individuals and systems
🌟 Using co-production in your context and workplace.

Learning Outcomes
Students will
🌟 Develop skills to implement co-production in their context
🌟 Gain knowledge about the history, theory & practice of co-production
🌟 Explore their attitudes toward collaboration and partnership on an equal basis between people with different perspectives, and the role that power plays in co-production.

Duration: 4 hours

Term 4 - Kogarah
Educators’ Training Program

If you are a Recovery and Wellbeing Educator or are interested in becoming one, these courses will provide you with the skills and knowledge for this role. These courses are ordered as a learning pathway, NOT in alphabetical order.

To discuss your particular learning needs and the relevance of these courses for you, please contact us at the College.

Skills for Educators

This course explores the core knowledge and skills required to effectively deliver courses as an educator with the Recovery College. Students will learn about adult education principles, planning and structuring courses and dealing with different student needs.

Learning Outcomes

Students will

- Develop skills to attract and engage students; develop a basic Recovery College session plan; problem solve if things don’t go as planned; and work effectively in a team teaching environment
- Gain knowledge about the principles of adult learning; the qualities and skills of an effective adult educator; and enhancers and distractions in the learning environment
- Explore their values and attitudes about their role as a course developer and educator in Recovery College courses.

Duration: 1 day

Term and Location

Term 1 - Kogarah
Term 3 - Kogarah

Educating for Recovery: Foundations

This course will provide you with an orientation to important foundational concepts of recovery and their application to the Educator role within the Recovery & Wellbeing College. Students will learn about the Recovery & Wellbeing College processes for course co-writing and co-facilitating. Information will also be provided about how recovery principles and co-production are embedded into all aspects of the college curriculum.

Learning Outcomes

Students will

- Develop skills to apply recovery concepts and principles to course co-writing and co-facilitation
- Gain knowledge of recovery education principles and concepts
- Explore beliefs and values about how the Recovery College model differs from psycho-education, group therapy and leisure activities.

Duration: 4 hours

Term and Location

Term 1 - Kogarah
Term 3 - Kogarah

Educating for Recovery: In Practice

This course facilitated by inside out and associates will focus on:

- Maintaining congruency between recovery concepts and educational delivery
- Competencies for recovery educators
- Co-production – principles and approaches
- Addressing common challenges to delivering recovery education
- What recovery means for development and delivery of workshops.
Learning Outcomes

Students will

- Develop skills to apply co-production principles to the design and delivery of recovery education
- Gain knowledge to recognise and apply the competencies needed to deliver effective and authentic recovery education
- Explore attitudes and discuss strategies to address common challenges and promote transformative learning.

Duration: 1 day

How to Co-write a Course

Successfully co-writing a course requires careful planning and collaboration. Students will learn about the Recovery & Wellbeing College quality assurance processes, including our Course Development Agreement. We will address:

- How to determine the course learning outcomes
- How to use the session plan to ensure that the course achieves the learning outcomes
- How to work in a team as well as collaborating with others, in the spirit of co-production, about the course content and process
- How to address the educational needs of diverse students who will attend the course.

Learning Outcomes

Students will

- Gain skills in how to co-write an adult education for recovery course
- Gain knowledge about learning styles and incorporating these into course writing
- Explore attitudes towards the benefits and challenges of course co-writing.

Duration: 4 hours

Term and Location

Term 2 - Kogarah
Purposeful Storytelling
This course is for current Peer Educators or for those seeking to become Peer Recovery & Wellbeing Educators. The session is facilitated by inside out and associates and provides Peer Recovery & Wellbeing Educators with the skills and knowledge to effectively and purposefully tell aspects of their own recovery story in an education program, in public speaking and in any peer or consumer work settings. This course also helps people with lived experience to make decisions about personal disclosures in any situation. Purposeful Storytelling is a unique skill set used by lived experience workers. The course addresses safe disclosure, personal boundaries, tailoring your story to the setting and aligning it with Recovery and Trauma Informed principles.

Learning Outcomes
Students will

★ Develop skills to apply the principles of Purposeful Storytelling throughout each phase of the storytelling process
★ Gain knowledge of the five steps for purposeful storytelling to plan for, design, deliver, edit and review a purposeful story
★ Explore ethical decisions in relation to all aspects of Purposeful Storytelling, taking into account the different contexts where storytelling arises.

Duration: 1 day

Term and Location
Term 1 - Kogarah
Term 3 - Kogarah

Developing Your Story
This course follows on from Purposeful Storytelling. Students will have an opportunity to practice developing purposeful stories about their own lived experience. Recovery principles such as hope, empowerment, identity and meaning and purpose will be drawn upon. Students will be assisted to develop their own stories relevant to the situation. There will be opportunities to practice delivering their stories in a safe environment.

Learning Outcomes
Students will

★ Develop skills in framing and delivering their stories plus how to decide what to include and what to exclude given the context
★ Gain knowledge about recovery-oriented frameworks and language which they can use to structure their purposeful storytelling
★ Explore their attitudes toward what makes a story purposeful and how they can be transformative.

Duration: 4 hours

Term and Location
Term 2 - Eastern Suburbs
Term 4 - Kogarah
Frequently Asked Questions

What happens after I complete the enrolment form?
A team member will contact you and arrange a time to meet for an orientation and discuss your individual learning needs. Prior to commencing any courses, we will work through a Student Learning Plan with you which will build on your strengths to identify a set of learning goals for recovery.

Do I need to be referred by the mental health team?
No. You do not need to be referred. As a student you simply complete the enrolment form and a staff member will talk to you about what courses you want to attend.

How many other students will be at the courses?
The class sizes are kept small so you can have the best environment for learning. The sizes will vary depending on the nature of the course, with the average around 8-15 students.

Who will teach the courses?
All our courses are co-written and co-facilitated by two Recovery & Wellbeing Educators. One is a person with a lived experience of mental health and/or drug and alcohol concerns. The other a health care worker, clinician or professional with suitable training and experience.

What do courses cost?
All courses are currently free of charge as long as you meet the eligibility criteria on page 1.

Do you supply food and refreshments?
Where possible, we provide tea, coffee and biscuits. Please bring along your own lunch and other snacks.

Can I bring a support person?
You are welcome to bring a support person to the course. This person also needs to complete the enrolment form and participate as a student in the same course.

What if I wish to provide compliments, feedback or make a complaint?
If you have any suggestions for new courses or any other ways we can improve please contact the Recovery & Wellbeing on Ph. 9113 2981 or email: seslh-recoverycollege@health.nsw.gov.au.

If you have any concerns or compliments we also encourage you to talk to a Recovery & Wellbeing team member by phoning 9113 2981. You can also discuss these issues with the Manager so they can work with you to find a solution.

If you don’t feel comfortable discussing your concerns with the Recovery & Wellbeing team members or Manager, you can contact the Complaints Officer. The Complaints Officer is independent of the Recovery & Wellbeing College and will look into your specific issues, attempt to provide a resolution and provide you with the result of this process.

Complaints Officer, St George Hospital,
Gray Street, Kogarah NSW 2217
Ph. (02) 9113 1111

If you do not get any satisfaction from the above steps or don’t wish to contact the Health Service directly you can contact the Health Care Complaints Commission

Health Care Complaints Commission (HCCC)
Ph.1800 043 159. For more information visit www.hccc.nsw.gov.au

What happens if I can’t attend the course?
We understand that there may be genuine reasons why on occasion people find it difficult to attend a course. The team is available to talk to you about any barriers to attending you might have and can suggest strategies to support you. We expect you to contact the College if you are unable to attend.
If you wish to contact us by telephone call the Translating and Interpreting Service (TIS) on 131 450. Tell the operator what language you speak, and then ask the interpreter to set up a telephone conversation between you, an interpreter and the health service contact listed below.

Students Rights and Responsibilities

Students have the right to:

✶ Be treated fairly and with respect by Recovery & Wellbeing College staff and students
✶ Be treated in a warm and professional manner
✶ Privacy, dignity and confidentiality
✶ Quality provision of courses that provide hope, opportunity, personal control and appreciate individual needs and learning styles
✶ Provide feedback, complaints or compliments through appropriate channels
✶ Be protected from all forms of harassment and discrimination
✶ Know about policies referring to them
✶ A safe and clean learning environment
✶ Have enquiries dealt with in an efficient manner
✶ Information, guidance and advice on courses
✶ Support for specific learning needs if you tell us about a disability or learning difficulty
✶ Have your personal beliefs, religious and cultural practices respected
✶ Express your views and be involved in developing the college

Students have the responsibility to:

✶ Treat other students and staff with respect and fairness
✶ Behave in an acceptable and appropriate manner towards other students and staff and to respect the property of the College and host community colleges
✶ Refrain from swearing in classrooms and other learning areas
✶ Not behave in any way that could offend, embarrass or threaten others
✶ Be respectful of personal space and boundaries
✶ Provide accurate information about themselves and advise of any changes
✶ Follow normal safety practices (e.g. following both written and verbal directions given by Recovery & Wellbeing College or host staff)
✶ Ask for clarification about anything you are not sure about

Student Guidelines

Students should:

✶ Act in a responsible manner and foster mutual respect and understanding between students
✶ Respect the rights, beliefs and opinions of others
✶ Not act in a way that may be considered threatening or disruptive, or likely to cause physical or emotional harm
✶ Refrain from the use of alcohol or illegal drugs when using the college

The college considers the following examples to constitute misconduct and subject to disciplinary procedures:

✶ Prevention or disruption of learning or other activities
✶ Violent, indecent, threatening or offensive behaviour or language
✶ Use of alcohol or illegal drugs on the premises
✶ Theft, damage or misuse of college or host organisations property, or the property of staff, students or visitors
✶ Action likely to cause injury or impair safety on college or host organisations premises
✶ Any act which constitutes a criminal offence
✶ Sexual, racial or other harassment of any staff member, student or visitor to the college
✶ Unwarranted and inappropriate touching
