

CENTRE FOR HEALTHCARE REDESIGN

Graduate Certificate in Clinical Redesign

About the program;

- The NSW Agency for Clinical Innovation (ACI) CHR Graduate Certificate in Clinical Redesign program is interactive & consists of face to face sessions and eLearning modules. Participants also complete a unit called *Translational Research* with the University of Tasmania (UTAS)
- Participants gain sound knowledge & skills in project & change management, improvement & innovation. They will experience practical application of the redesign methodology to their project
- Participants graduate with a Grad Cert in Clinical Redesign from UTAS
- Workplace coaching & mentoring is provided by the district Redesign team
- There is no financial cost to participants
- Program 1 2020 commences **February 2020** and is targeted for partnership teams in primary and acute care to redesign services to deliver improved care for Aboriginal people

How to apply;

- Contact Louise Deady A/SESLHD Redesign Leader via email louise.deady@health.nsw.gov.au
