

Clinical Trigger for patients as potential Organ Donors

The graphic features a pink background with a repeating heart pattern. At the top left is a 'donate life' logo. The main title 'clinical trigger' is in white. Below it, the question 'Have you given your patient the opportunity to G.I.V.E?' is written in white with an arrow pointing right. The acronym 'G.I.V.E.' is displayed in large black letters across four grey boxes. Below each letter is a pink box with the corresponding criterion: 'GCS ≤5', 'Intubated', 'Ventilated', and 'End of life care'. A large black arrow points from the 'G.I.V.E.' acronym to a white box containing contact information for the Organ & Tissue Donation team via Switch: Dr Gordon Flynn (HMD) and Christian Van Reede (HSN). At the bottom left, small text reads 'Initiated by: ACEM, ANZICS, College of Intensive Care Medicine, ACC'.

G
GCS ≤5

I
Intubated

V
Ventilated

E
End of life care

Contact Organ & Tissue Donation team
via Switch:
Dr Gordon Flynn (HMD)

Initiated by: ACEM, ANZICS, College of Intensive Care Medicine, ACC

Patients who have suffered in irreversible and irrecoverable neurological injury

G – GCS < 5

I – INTUBATED

V – VENTILATED

E – END OF LIFE CARE has been discussed or will be discussed with family.

Regardless of patient medical history, if patients meet the above criteria, the organ and tissue donor team must be contacted.
