**MENTAL HEALTH SERVICE BUSINESS RULE SESLHDBR/069**

<table>
<thead>
<tr>
<th>Name</th>
<th>Framework for Clinical Nurse Consultant Practice</th>
</tr>
</thead>
</table>

**What it is**

It is a business rule to inform and guide Nurse Managers, Nursing Unit Managers, Managers, Team Leaders and Clinical Nurse Consultants (CNCs) in the application of CNC practice across SESLHD Mental Health Service (MHS). This business rule guides the framework for CNC practice (APPENDIX A) by outlining the SESLHD MHS performance goals, and the reporting requirements, of each grade of the CNC role, against the functions and domains as outlined in **NSW Health Information Bulletin ‘Clinical Nurse Consultants – Domains and Functions’ IB2011 024**.

**Risk Rating** | Medium | **Review Date** | January 2019 |
|----------------|--------|----------------|--------------|

**Who it applies to**

This business rule applies to all Nurse Managers, Nursing Unit Managers, Managers, Team Leaders and CNCs in SESLHD MHS.

**When to use it**

This document is to be used:

- When creating, grading or regrading CNC positions in the MHS.
- During orientation of new staff to their role as CNCs in the MHS.
- During regular performance reviews of CNCs in the MHS.
- When determining the CNC role in operational and strategic planning processes in the MHS.

**Why the rule is necessary**

This business rule is necessary to provide:

- Clarification regarding the expectations of the SESLHD MHS in relation to the CNC role/position and grading.
- A framework for reporting requirements and performance review of CNC activities.
- A performance review guide to articulate advanced practice expectations for registered nurses aspiring to attain a CNC role.
- SESLHD MHS with a guide to the structures required to support CNCs to meet the award and the MHS role expectations of their grade, in their area of speciality.

**Definitions**

**Clinical Nurse Consultant**

The [NSW Public Health System Nurses’ and Midwives’ (State) Award 2015](#) defines the qualifications and experience for CNC positions as follows:

- A CNC 1 must be a Registered Nurse with at least 5 years’ post registration experience and an approved post registration nursing qualification.
- A CNC 2 must have at least 5 years’ post registration experience, 3 years’ experience in the speciality field in which he/she will be working, and relevant postgraduate qualifications.
- A CNC 3 must have at least 7 years’ post registration experience, 5 years’ experience in the speciality field in which he/she will be working, and relevant postgraduate qualifications.
- In addition the employee must have approved postgraduate nursing/midwifery qualifications relevant to the field in which...
he/she is appointed or such other qualifications or experience deemed appropriate by the public hospital or health organisation.

Domains
There are 5 domains of practice attached to the Clinical Nurse Consultant (CNC) role as outlined in IB2011_024: The domains are:  
- Clinical Service and Consultancy.
- Clinical Leadership.
- Research.
- Education.
- Clinical Service Planning and Management.

Functions
Each domain has a set of functions allocated according to the CNC grade. CNCs in higher grades are also expected to be able to perform the functions of the lower grade positions. In APPENDIX A, SESLHD MHS has outlined performance goals related to the 5 domains. This information is meant as a guide to assist with determining the grading application for newly created positions, in annual planning requirements for the CNC and the facility/District, and as a prompt for review of expectations related to the position in monthly reporting and annual performance reviews. APPENDIX A can also be used when discussing position requirements for registered nurses considering advanced practice roles.

Performance Framework
CNCs are senior members of nursing staff and work autonomously, and as part of a team. All CNCs are to undertake annual performance reviews in accordance with the NSW Ministry of Health Policy Directive ‘Managing Performance’ PD2013_034.

It is recommended that CNCs meet with their managers monthly to plan activities which are in strategic alignment with SESLHD MHS priorities for service provision and service development, and which advance the practice of the nursing speciality.

Each CNC is to provide a regular report to his/her line manager, detailing activity that addresses the agreed performance goals and domains (see APPENDIX B ‘SESLHD MHS CNC Monthly Report’ template). The time interval of the regular reporting schedule is to be negotiated between the CNC and his/her line manager, in consultation with the relevant Clinical Operations Manager (COM). It is not expected that all CNCs meet all of the domains all of the time; priorities are determined by the CNC and his/her manager.

All CNCs are to maintain a documented individual work plan, and are expected to share knowledge with less experienced staff members when requested. These documents must be presented at the CNC’s annual performance review and further supported with de-identified documentation (such as but not limited to; meeting minutes, a portfolio of educational resources, research submissions, certificates, scholarships, training reports, care plans, monthly reports, formal reports on reviews, quality activities and research).
It is also expected that CNCs will have active membership of professional bodies and, in consultation with management, facilitate their own ongoing professional development.

**Service Register**

A central register of SESLHD MHS CNCs is kept with each service’s Senior Nurse/COM. CNCs are to update their details each year at their annual performance review by completing and submitting the ‘CNC Information for Service Register’ Form (APPENDIX C).

### What to do

Nurse Managers, Nursing Unit Managers, Managers and Team Leaders are to:

- Refer to this document to identify key SESLHD MHS requirements of the position prior to employment of a CNC, and for the purpose of monthly reporting and annual performance review of a CNC employed by the MHS.
- Utilise this document to inform position descriptions and grading requirements when developing new CNC positions, in consultation with the SESLHD MHS Clinical Nurse Manager and senior nurses among the CNC group.
- Ensure current and new CNCs have a copy of this document to inform orientation and annual performance review expectations.
- Seek advice from the CNC group on matters pertaining to clinical practice and operationally meeting the domain requirements of CNC roles, in order to meet the advanced practice requirements.

CNCs are to:

- Utilise this document when developing a work plan for their position, and when preparing monthly reports, revision of work plans and annual performance review documents.

### Who is responsible

Responsible staff include SESLHD MHS Nurse Managers, Nursing Unit Managers, Managers, Team Leaders and CNCs.

### Ministry of Health / SESLHD reference

## APPENDIX A:

### SESLHD MENTAL HEALTH SERVICE FRAMEWORK FOR CLINICAL NURSE CONSULTANT PRACTICE

**Domain 1: Clinical Service and Consultancy**

<table>
<thead>
<tr>
<th>CNC Grade</th>
<th>Award Criteria</th>
<th>SESLHD MHS Performance Goals</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade 1</td>
<td>Expert client-centred consultancy practice participating in direct patient care provision</td>
<td>Provides consultancy to client assessment and care planning at a range of settings across the speciality (e.g. Emergency Department/Psychiatric Emergency Care Centre/Inpatient Unit/Community)</td>
</tr>
<tr>
<td></td>
<td>Education on complex clinical issues to patients and carers</td>
<td>Takes the lead in development of clinical processes and implementation of clinical standards/guidelines</td>
</tr>
<tr>
<td></td>
<td>Participates/collaborates in the design and conduct of quality improvement initiatives</td>
<td>Collaborates with consumer and carer representatives, and participates in at least 1 formal and 2 informal consumer and carer education sessions each year</td>
</tr>
<tr>
<td></td>
<td>Identifies and adopts innovative clinical practice models</td>
<td>Facilitates and participates in the design and implementation of at least 2 quality improvement/practice review activities each year</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Provides at least 1 clinical supervision group within a formalised structure and actively promotes uptake among staff each year</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Provides clinical supervision and mentoring of new graduates in the mental health clinical setting as required</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Meets regularly with clinical staff to identify, and respond to, at least 2 areas for clinical practice improvement (new treatments/technologies/therapeutic techniques) each year</td>
</tr>
</tbody>
</table>
| Grade 2 | Provides a complex client-centred consultancy in a mixed clinical environment or across a series of services  
Develops specialised education resources for patient/carer/community to be utilised by other health care professionals | Participates in complex case reviews as a resource to clinicians in the speciality area  
Provides clinical supervision/mentoring to at least 2 individual advanced practice clinicians (Clinical Nurse Specialist/ Clinical Nurse Educator [CNE]/CNC) within a formalised structure and participates in own clinical supervision  
Provides advanced practice knowledge to reviews and implementation of policies, procedures and guidelines as requested  
Initiates, manages and reports against at least 2 quality improvement activities each year  
Mentors and assists clinicians to develop, distribute and review at least 2 clinical resources/clinical practices each year |
| Grade 3 | Provides a more complex and expansive clinical consultancy service within a mixed clinical environment and/or across multiple service groups and/or patient populations, and incorporating a range of modalities  
Undertakes primary responsibility for formalised ongoing clinical supervision processes for CNC peers  
As an expert, conducts systematic review of clinical practice, including (if required) for external organisations | Provides a high level of consultancy to multidisciplinary teams and management across the District, sourcing a range of resources and demonstrating application of advanced practice learning to clinical care in the speciality field  
Provides specialist nursing input to regular complex case reviews and clinical review processes as required  
Provides specialist nursing input into the review of practice standards, policies and procedures and position papers as required  
Provides clinical supervision and mentoring to minimum of 2 advanced practice practitioners at CNE/CNC level  
Creates, actively participates in, and monitors systems for liaison with managers and staff to ensure evidence based practice in the speciality field is delivered clinically  
Creates and actively participates in clinical networks in the speciality field to ensure ongoing internal and external systematic peer review of clinical practice |
## Domain 2: Clinical Leadership

<table>
<thead>
<tr>
<th>CNC Grade</th>
<th>Award Criteria</th>
<th>SESLHD MHS Performance Goals</th>
</tr>
</thead>
</table>
| Grade 1   | Acts as a role model as an expert clinician  
            Contributions to the development and management of clinical processes  
            Provides leadership in the ongoing review of clinical practice at facility and District level | Acts as a mentor/clinical teacher/resource and support person in a speciality setting  
In consultation with managers, consumers and clinical staff, develops, implements and evaluates strategies to improve clinical processes and patient care outcomes |
| Grade 2   | Provides leadership in the ongoing review of clinical practice across multiple sites or by multiple CNCs in an LHD  
            Participates in state and national working parties  
            Assumes leadership roles which promote broader advancement of clinical practice | Facilitates and participates on at least 2 working groups to conduct annual reviews of guidelines/policies related to clinical practice in the MH speciality  
Consults with managers and senior nurses to identify participation on relevant state and national working parties  
Regularly attends complex case reviews and clinical review meetings to contribute specialist knowledge to the resolution of complex clinical issues  
Initiates the incorporation of current academic research into clinical nursing practice through informing policy and practice review at a clinical service level |
| Grade 3   | Provides leadership in state, national or international nursing bodies or specialist groups  
            Initiates collaborative ventures with academic colleagues | Facilitates discussion across SESLHD MHS management, and on state/national bodies, on issues related to changes in nursing practice and consumer care  
Participates in establishing and maintaining processes for communication between SESLHD MHS and academic institutions, related to nursing practice development  
Facilitates collaborative partnerships with academic colleagues  
Participates as a mentor in leadership programs in SESLHD MHS |
## Domain 3: Research

<table>
<thead>
<tr>
<th>CNC Grade</th>
<th>Award Criteria</th>
<th>SESLHD MHS Performance Goals</th>
</tr>
</thead>
</table>
| Grade 1   | Initiates, conducts and disseminates the findings of locally based research  
Participates as a co-researcher in larger studies  
Manages research projects requiring contribution from others | Sources at least 2 peer reviewed nursing articles for dissemination into clinical settings through journal clubs, networks forums and clinical supervision groups  
Promotes a culture of research and enquiry in the clinical setting  
Initiates nursing participation in research studies conducted in the clinical setting that require clinical contribution from others  
Utilises clinical meetings to identify opportunities for development of at least 2 quality improvement/practice development activities each year |
| Grade 2   | Adapts and applies related scientific research to specialty  
Initiates original research projects  
Disseminates research results through publications and presentations | Evaluates quality improvement processes and implements practice change into clinical processes/programs/projects  
Adapts and applies related scientific research from nursing and other scientific disciplines to clinical nursing practice through peer networks, clinical review processes, and policy development and review systems  
Conducts at least 2 research activities related to clinical practice each year (e.g. case studies, reviews of practice, practice development) and disseminates research through publications and/or presentations |
| Grade 3   | Acts as a principal researcher in significant research studies making a contribution to nursing science | Identifies research opportunities and develops collaborative academic nursing partnerships related to the speciality  
Identifies gaps in speciality nursing practice and initiates collaboration with academic colleagues  
Disseminates own research results through specialist publications and presentations at local/state/international forums  
Participates in and presents during at least 2 conferences/forums per year  
Ensures peer reviewed research from nursing and other scientific disciplines as it relates to nursing is disseminated to, and critically discussed at, network forums, peer review processes and clinical review processes across the speciality |
## Domain 4: Education

<table>
<thead>
<tr>
<th>CNC Grade</th>
<th>Award Criteria</th>
<th>SESLHD MHS Performance Goals</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade 1</td>
<td>Participates in formal and informal education sessions</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Identifies clinical education needs</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Collaborates with others in the development and delivery of education programs</td>
<td>Undertakes 6-monthly review of staff education needs, in consultation with clinical staff and management</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Consults with clinical staff to collaboratively develop and deliver at least 4 formalised education sessions each year in the speciality clinical setting</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Consults with clinical staff to collaboratively develop and/or review at least 2 education resources in the speciality clinical setting</td>
</tr>
<tr>
<td>Grade 2</td>
<td>Undertakes primary responsibility for planning and implementing specialist clinical education for SESLHD MHS</td>
<td>Facilitates consultation with staff and managers to develop and implement an educational work plan across the speciality area</td>
</tr>
<tr>
<td></td>
<td>Develops significant education resources for nurses and other clinicians</td>
<td>Sources and/or develops evidence based educational resources for nurses working in the speciality across the LHD</td>
</tr>
<tr>
<td></td>
<td>Participates in the development and delivery of postgraduate tertiary programs</td>
<td>Contributes advanced practice nursing knowledge to education forums, journal clubs and special interest groups in the speciality area</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Delivers at least 2 formalised education sessions across SESLHD MHS clinical settings each year</td>
</tr>
<tr>
<td>Grade 3</td>
<td>Provides significant contribution to the direction of clinical nursing education within the speciality</td>
<td>Facilitates contribution of specialist advice to LHD, state and national practice development processes that review, and impact on, the future direction of nursing practice and consumer care</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Contributes to the development and delivery of education sessions, related to advance practice in the speciality, to clinicians across the LHD</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Provides specialist nursing knowledge to District-wide special interest groups as requested</td>
</tr>
</tbody>
</table>
## Domain 5: Clinical Service Planning and Management

<table>
<thead>
<tr>
<th>CNC Grade</th>
<th>Award Criteria</th>
<th>SESLHD MHS Performance Goals</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade 1</td>
<td>Identifies future issues and new directions for the service</td>
<td>Reports monthly to line manager against CNC domains to highlight alignment of current practice functions with SESLHD MHS operational and strategic objectives</td>
</tr>
<tr>
<td></td>
<td>Contributes to formal service and strategic planning processes in the organisation</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Plans, implements and evaluates annual plan</td>
<td>Identifies future issues and new directions for the clinical service</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Participates in strategic planning processes for the clinical setting</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Participates as a clinical leader in risk minimisation strategies across the LHD (e.g. sexual safety/aggression minimisation/ workplace safety working groups)</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Develops and implements a work plan for clinical consultancy service, identifying links to local and LHD clinical services plan</td>
</tr>
<tr>
<td>Grade 2</td>
<td>Provides ongoing comprehensive analyses of current practice and the impact of new directions on the clinical specialty service</td>
<td>Provides strategic analyses of the impact of new directions for the clinical service to service/LHD planning processes</td>
</tr>
<tr>
<td></td>
<td>Initiates, develops, implements and evaluates strategic changes for MH or the service</td>
<td>Provides specialist clinical consultancy to District projects and working groups reviewing and establishing strategic and operational objectives</td>
</tr>
<tr>
<td>Grade 3</td>
<td>Undertakes primary responsibility for preparation, implementation and evaluation of annual plan for a clinical service</td>
<td>Facilitates multidisciplinary consultation with clinicians and managers, to develop, implement and evaluate an annual work plan for the clinical speciality, incorporating local and LHD clinical services objectives</td>
</tr>
<tr>
<td></td>
<td>Manages complex projects relating to significant practice change for the organisation</td>
<td>Fosters a clinical service that values and supports SESLHD MHS risk minimisation frameworks and practice change initiatives</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Provides leadership to clinicians in the speciality, in reviewing and adapting clinical practice to maintain accreditation requirements</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Utilises specialist knowledge to strategically identify, and facilitate a response to, at least 2 complex projects relating to practice change issues in SESLHD MHS each year, through the development of policies, position papers, literature reviews or projects</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Utilises SESLHD MHS management consultation processes to inform of change processes that are likely to impact on service delivery and resource allocation</td>
</tr>
</tbody>
